About Morrison Academy

Morrison Academy was founded by missionaries in 1952 to educate students in a distinctively Christian environment with a quality American curriculum. Its dynamic learning environment paired with caring educators prepares students to be effective leaders, moral and ethical citizens, and life-long learners. The school strives to lead students to the Truth which will provide them with an intellectual and moral anchor for life. It is the school's goal to equip the whole student, helping them to acquire the knowledge, discernment, and ability to dynamically impact the world. Morrison Academy is jointly accredited by the Western Association of Schools and Colleges and the Association of Christian Schools International.

Campuses and Facilities

Morrison has campuses in Taipei, Taichung and Kaohsiung. The Taipei campus offers classes from kindergarten through ninth grade. The Kaohsiung* and Taichung campuses offer classes from kindergarten through twelfth grade. The Taichung campus also has a quality boarding program which provides a home-like atmosphere.

In order to foster an excellent learning environment, the school is supported by extensive libraries, Mandarin language labs, and integrated technology systems, such as interactive white boards and student response systems. Each campus is well-equipped to provide a well-rounded learning experience for each student.

*By the 2015-2016 school year, there will be a class for each grade K-12 level.

Academics

Students at Morrison are given the opportunity to learn and experience a rigorous and challenging curriculum that prepares them for an ever-changing world. Morrison seeks to provide a positive learning environment for each student by focusing on both group learning and individual development. Students will obtain the knowledge and skills to be effective communicators and rational and critical thinkers.

As an international school in a Mandarin-speaking country, Morrison is poised to provide various academic opportunities. Morrison offers Mandarin as a foreign language at every grade level. Also, students have opportunities to take part in academic exchanges with other international schools in mathematics competitions, spelling bees, debates, the World Scholar's Cup, and the Model United Nations.

Elementary and Middle School

Morrison provides a nurturing and safe environment for students' younger years. While fostering each student's curiosity, teachers strive to integrate the best educational practices to help students achieve optimum levels of learning. The classroom is a place for students to learn, explore, and be challenged as they develop spiritually, mentally, emotionally, and physically. Our middle school staff actively assists students as they build their personal identities and transition into high school. The intentional integration of service learning projects into school life provides opportunities for each student to develop a heart of compassion and a lifestyle of service.

High School

The high school aims to provide a balanced curriculum and facilitate student's spiritual, intellectual, emotional, social, and physical growth. Academically rigorous Advanced Placement courses are provided, a range of online courses are available, and a wide variety of extracurricular activities are offered in the performing arts, athletics, service

learning, and student government. These opportunities help develop each student's interests, abilities, and leadership skills. More than 95 percent of each graduating class pursues higher education, most at universities in the United States and Canada.

Fine Arts

Well-developed band, orchestra and choir courses are available on all three campuses. Visual Arts instruction is offered at every grade level, allowing students to develop their musical and artistic talents and abilities. As students mature, they have opportunities to become involved in media and publishing, including video production, photography, web design, journalism and yearbook production.

Athletics

Morrison's intramural elementary sports emphasize participation. The interscholastic middle school sports include volleyball, softball, soccer, and basketball for both boys and girls. The high school soccer, volleyball, basketball, swim, and track teams compete against schools both in Taiwan and in regional tournaments in Asia.

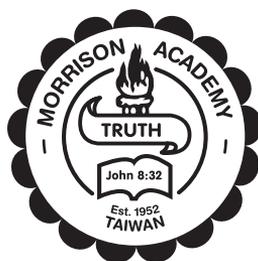

Staff

All Morrison teachers are certified in their academic disciplines and are committed to partnering with parents to meet the unique needs of each student. The school provides extensive professional learning programs for teachers to enable them to stay current in the best educa-

tional practices. Most of Morrison's staff could earn higher salaries in secular international schools or in their home countries, but they choose to serve at Morrison because they believe in the school's vision and mission.
