Philosophy Statement

God created all people in His image with the unique ability to understand, create, and communicate ideas. The language arts develop these abilities to appreciate and influence God's world for His glory. Therefore, Morrison offers a balanced language arts program that teaches students to read with fluency and comprehension, evaluate text and media content with discernment, listen with understanding and compassion, speak with conviction and effect, and write with clarity and persuasion. (O'Malley 1999)

Hallmarks

Academic Excellence

Language Arts skills play an integral part in developing a well-rounded learner. These skills permeate all aspects of learning in every academic subject. Morrison's Language Arts curriculum challenges students to pursue academic excellence as they analyze texts, organize and communicate their own thoughts, refine and present their thinking through research by using various technological tools. Morrison teaches students how to be critical and creative thinkers as well as effective communicators, so they can make sense of the world around them as inquisitive learners.

Balanced Literacy

Balanced Literacy is an approach to reading and writing instruction that involves the explicit teaching of phonics and high-frequency words in early reading simultaneously balanced with the listening and responding to text to build a foundation for reading later on. Such a model recognizes the importance of both form (phonics, mechanics) and function (comprehension, meaning, purpose) of language arts. (Keene, Gambrell 2007)

Biblical Worldview Integration

Morrison instructs students how to see the world through the lens of the Bible. We integrate scripture and worldview formation throughout our Language Arts program so that our students can communicate their beliefs in ways that are intellectually and logically coherent. Instruction utilizing Biblical integration also challenges students to seek consistency between their beliefs and actions. Our curriculum does not avoid using secular texts and resources, but uses scripture to help students see and understand the world the way it is: created perfect by God, damaged by sin, and redeemed by Christ. Students, whether Christian or not, learn to use the Bible as a powerful resource and communication tool to work toward a better world.

Comprehension Strategies

Morrison emphasizes reading and writing instruction and practice in a way that empowers each student to construct meaning through the use of mentor texts across a variety of genres. Teachers use specific strategies to help students improve comprehension in whole group, small group, and individual conferences. Thinking strategies are explored through working with key ideas and details, craft and structure, and integration of knowledge and ideas.

Differentiated Instruction

Morrison differentiates instruction to honor every student's pursuit of literacy. Teachers assess and act upon individual learners' readiness, interests, and learning styles. The teacher creates an inclusive environment through the use of diverse strategies for students to learn content, apply process, produce a product, and grow through assessment. Instruction and format are designed to meet the needs of individual students to advance their

reading, writing, speaking, and listening skills through whole group, small group, and individual instruction. (King-Shaver/Hunter 2009)

Motivation for Personalized Reading

Morrison teachers facilitate personalized reading programs for students by collaborating with the Library/Media Center. This promotes students' choice of materials, conditioned by interest and reading level. Teachers and librarians also progressively guide students to find and assess informative, engaging, and appropriate texts online, preparing students for independent research in a BYOD environment. This approach provides students with a rich array of high-interest texts for pleasure and information.

Quality Assessment

Morrison teachers use a variety of assessment strategies to help monitor and evaluate student learning. Teachers communicate standards that will be covered in a unit and how those standards will be evaluated. To guide the learning process, teachers use formative assessment to discover gaps in learning and monitor progress toward learning outcomes. This allows teachers to gather data that informs instruction and provide students with frequent and timely feedback as they learn. Other tools such as checklists, rubrics, and exemplars provide the student with clear expectations as they demonstrate understanding. Summative assessments come at the end of instruction and provide students an opportunity to demonstrate their mastery of English Language Arts standards.

Response to Literature

Literature sparks students' thoughts, emotions, and imaginations in a unique way. As such, studying literature includes teaching students how to respond to ideas and peers with purpose and skill. Effective response to literature includes accurate understanding and evaluation of the merits of a piece, the ability to communicate thoughts and impressions about the piece, and the willingness to engage with other perspectives in critical and appreciative ways. Teachers will plan lessons that equip students to critically and creatively share their thoughts and insights in writing, discussion, and cooperative tasks. Students evaluate the worth and beauty of pieces of literature as they develop into Moral and Ethical Citizens.

Technology

Technology (hardware, software, online and media resources, etc.) is not added to, but is integrated with, classroom instruction. Our emphasis is on the learning outcome and instructional strategy rather than the device or digital resource. Integrated technology is used to support the learning process both in and outside of the classroom. Technology is morally neutral, but the use of it is not. The teaching and reinforcement of appropriate use extends beyond strategies for effective and productive learning to discernment, ethics, and healthy choices.

Verbal Fluency

In order to effectively communicate with conviction and effect, students frequently practice speaking in various contexts. This practice may take the form of reading out loud, oral interpretation, speeches, Socratic seminars, role-playing, and interviews. Teachers guide

students to use the right words, sentence structure, pronunciation, and nonverbal elements when speaking. Students also learn that speaking well corresponds to listening well.

Effective Writing

Morrison equips students to write with skill and purpose by scaffolding instruction of effective writing traits across all grade levels. This upward process culminates in students' ability to develop and organize ideas, cultivate a strong writing voice, craft fluent sentences, and utilize proper conventions. Students learn to express themselves effectively across various types of writing (including narrative, informational, argumentative, and analytical writing).

Overview by Grade/Course

Elementary School

Kindergarten

Kindergarten offers students a language-rich experience as they begin their journey as learners. Students begin reading printed text, exploring phonics and decoding skills, and utilizing strategies to build comprehension. Students are introduced to writing skills (letter formation, expressing thoughts) through direct instruction, shared reading experiences, rhymes, poems, literature, informational texts, and stories created by children. Listening and speaking skills are modeled and practiced. Technology is introduced as a tool for learning, reading, and producing and publishing writing.

Grade 1

First Graders will begin to develop greater independence as readers and writers. They will continue the balanced literacy approach in reading through the direct instruction of phonics, vocabulary, and comprehension. In writing, students will experience writing different types of text. In both reading and writing, students will experience exposure to a variety of literature, genres, informational texts, writing opportunities, and basic research skills. Listening and speaking skills will develop through individual and collaborative projects with others. Students will use technology as a learning resource with the guidance of adults.

Grade 2

A variety of literature, informational texts, technology, mentor writing samples, and other resources provide ample opportunities for reading, writing, research, speaking, and listening. A stronger emphasis on reading comprehension begins as students become more fluent readers. Vocabulary and spelling are also studied through direct instruction and independent discovery. Independent reading at home is vital for continued reading and writing improvement. Students continue to use writing as a way to express thoughts, write stories, and share learning. Second graders will also explore using technology to enhance and share their learning.

Grade 3

Grade 3 students work to gain independence in reading, writing, listening comprehension, and speaking skills. During reading and writing workshops, students will use close reading that focuses on significant details or patterns

in order to develop a deep, precise understanding of the text's form, craft, and meanings. Comprehension and vocabulary skills improve as students use thinking and word analysis strategies more independently. Students use the writing process and apply traits of good writing to produce their own stories, essays, and research projects. Students begin to do more research independently as well as develop presentation skills to showcase learning. The transition to cursive handwriting begins this year as well the introduction of keyboarding skills.

Grade 4

Grade 4 students will have the opportunity to integrate reading, writing, listening, and speaking skills through inquiry-based learning. During Reading and Writing Workshops, students will be able to explore a variety of genres, formulate their own opinions, and defend their thinking through text-based evidence. Students will also continue to learn more complex vocabulary and spelling skills as well as review cursive handwriting and keyboarding instruction.

Grade 5

In Grade 5, students use the skills they have developed in reading, writing, listening, and speaking to demonstrate their learning on a deeper level. Students apply an inquiry-based approach to learning to showcase their understanding in a variety of reading and writing genres. Vocabulary and spelling skills are taught to continually deepen understanding of the text they encounter. Students will also continue to improve their keyboarding skills, and they will use technology in a variety of ways to collaborate and publish their work.

Middle School

Grade 6

The sixth grade Language Arts curriculum targets students' growth in the areas of reading, writing, research, listening, and presentation. Through fiction, nonfiction, and poetry reading, students will practice reading strategies and comprehension skills. The focus of writing will be on narrative, informational, and argumentative writing with editing and revision. Reading strategies, critical thinking skills, and vocabulary building comprise the main elements of reading instruction. Students learn to communicate what they believe in ways that are intellectually and logically coherent as well as to articulate consistency between their beliefs and actions using the Bible as a resource.

Grade 7

The seventh grade Language Arts curriculum is centered around an extensive study of grammar, grammatical constructions, and their carry-over into units of literature and composition. In order to develop an appreciation and an understanding for the various types of literature, the course introduces the student to the short story, the novel, and the literary similarities between the two. The art of composition, especially the development of the paragraph and the multiparagraph essay within the modes of narrative, informational, and persuasive writing, is an area of focus. Students learn to communicate what they believe in ways that are intellectually and logically coherent as well as to articulate consistency between their beliefs and actions using the Bible as a resource.

Grade 8

The eighth grade Language Arts curriculum provides students with opportunities and resources to develop the skills of listening, speaking, reading, and writing to enable students to participate as informed, literate members of society. Instruction provides the students with the necessary skills to produce varied types of writing, while also helping students develop an appreciation for writers' techniques applied within sound pieces of literature. Instruction emphasizes various techniques for analyzing literature, and multiple opportunities for practice are encouraged. Students learn to communicate what they believe in ways that are intellectually and logically coherent as well as to articulate consistency between their beliefs and actions using the Bible as a resource.

Power Standards

With the adoption of Common Core State Standards for English Language Arts, the Language Arts Curriculum Task Force has identified **Power Standards** for each grade level, Kindergarten through Twelfth grade. The Common Core both breaks down content and learning skills into smaller components and divides out reading comprehension between informational text and literature thus creating a greater number of standards. **Power Standards** are the standards that are essential for students to master to be prepared for and successful in the next grade level. While teachers will strive to teach and assess all the standards, these standards will garner extra time and emphasis within the curriculum.

Power Standards were selected by the curriculum task force based on the guiding work of school districts in the the United States and selection criteria of:

- **Endurance** - Power Standards support learning that lasts beyond a grade level or class and cultivates knowledge and skills needed in life.
- **Leverage** - Power Standards encourage interdisciplinary knowledge and skills. They have value in a Language Arts class and crossover in their application to other content areas.
- **Readiness** - Power Standards are prerequisite concepts and skills that prepare students for the next grade level or course of study. (Ainsworth, 2013, pp. 25-27).

In each of the grade-level standards pages that follow, **Power Standards** will be identified by light gray highlight.

Writing Standards K–5

The following standards for K–5 offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. Writing Standards 6–12

The following standards for grades 6–12 offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. Each year in their writing, students should demonstrate increasing sophistication in all aspects of language use, from vocabulary and syntax to the development and organization of ideas, and they should address increasingly demanding content and sources. Students advancing through the grades are expected to meet each year's grade-specific standards and retain or further develop skills and understandings mastered in preceding grades. The expected growth in student writing ability is reflected both in the standards themselves and in the collection of annotated student writing samples in Appendix C

W.9.1. Write arguments to support claims in an **analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.**

Possible Strategies:

W.9.3. Write texts that incorporate narrative elements **narratives** to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

Possible Strategies:

- a. Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.

(Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 9–10.)

W.9.6 (Not applicable to in Grade 9) MA

W.9.7. Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

W.9.8. Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas,

SL

Speaking and Listening Standards 9–12

The following standards for grades 9–12 offer a focus for instruction in each year to help ensure that students gain adequate mastery of a range of skills and applications. Students advancing through the grades are expected to meet each year’s grade-specific standards and retain or further develop skills and understandings mastered in preceding grades.

Comprehension and Collaboration

SL.12.1. Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 11–12 topics, texts, and issues, building on others’ ideas and expressing their own clearly and persuasively.

- a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
- b. Work with peers to promote civil, democratic discussions and decision-making, set clear goals and deadlines, and establish individual roles as needed.
- c. Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- d. Respond thoughtfully to diverse perspectives; synthesize comments, claims, and evidence made on all sides of an issue; resolve contradictions when possible; and determine what additional information or research is required to deepen the investigation or complete the task.

SL.12.2 (Not applicable in grade 11) MA

SL.12.3. Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

SL.12.4. Present information, findings, and supporting evidence (e.g., reflective, historical investigation, response to literature presentations), conveying a clear and distinct perspective and a logical argument, such that listeners can follow the line of reasoning, alternative or opposing perspectives are addressed, and the organization, development, substance, and style are appropriate to purpose, audience, and a range of formal and informal tasks. Use appropriate eye contact, adequate volume, and clear pronunciation.

Possible strategies:

- a. Plan and deliver a reflective narrative that: explores the significance of a personal experience, event, or concern; uses sensory language to convey a vivid picture; includes appropriate narrative techniques (e.g., dialogue, pacing, description); and draws comparisons between the specific incident and broader themes. (11th or 12th grade) CA
- b. Plan and present an argument that: supports a precise claim; provides a logical sequence for claims, counterclaims, and evidence; uses rhetorical devices to support assertions (e.g., analogy, appeal to logic through reasoning, appeal to emotion or ethical belief); uses varied syntax to link major sections of the presentation to create cohesion and clarity; and provides a concluding statement that supports the argument presented. (11th or 12th grade) CA

SL.12.5. Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

L

Language Standards 9–12

The following standards for grades 9–12 offer a focus for instruction each year to help ensure that students gain adequate mastery of a range of skills and applications. Students advancing through the grades are expected to meet each year’s grade-specific standards and retain or further develop skills and understandings mastered in preceding grades. Beginning in grade 3, skills and understandings that are particularly likely to require continued attention in higher grades as they are applied to increasingly sophisticated writing and speaking are marked with an asterisk (*). See the “Language Progressive Skills, by Grade” table on page 76 for a complete listing and Appendix A for an example of how these skills develop in sophistication.

Conventions of Standard English

L.12.1. Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

L.12.2. Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

b. Spell correctly

Knowledge of Language

L.12.3. Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

a. Vary syntax for effect, consulting references (e.g., Tufte's *Artful Sentences*) for guidance as needed; apply an understanding of syntax to the study of complex texts when reading

Vocabulary Acquisition and Use

L.12.4. Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grades 12 reading and content, choosing flexibly from a range of strategies.

a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.

b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., conceive, conception, conceivable). Apply knowledge of Greek, Latin, and Anglo-Saxon roots and affixes to draw inferences concerning the meaning of scientific and mathematical terminology. CA

c. Consult general and specialized reference materials (e.g., college-level dictionaries, rhyming dictionaries, bilingual dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, its etymology, or its standard usage. CA

d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

L.12.5. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

a. Interpret figures of speech (e.g., hyperbole, paradox) in context and analyze their role in the text.

b. Analyze nuances in the meaning of words with similar denotations.

L.12.6. Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Appendix A: Language Arts Core Books

Primary (K-2): Teachers must choose at least three of the core books as read-alouds to the class to demonstrate thinking strategies. Teachers may not use books on another grade level's list.

Intermediate and Middle (3-8): Teachers must choose at least one novel from their grade level list for benchmark instruction. Teachers may not use novels on another grade level's list.

High School (9-12): Teachers must choose at least one novel from the course list. The English department revised the Language Arts Core Book list of novels that teachers are free to choose from as they teach their respective classes. The expectation is that these are choices, rather than a list of books that must be completed during the year. Should any teacher in the department desire to teach a new novel, discussion is brought to the department as a whole for collaboration. The department head will seek the principal's approval for any novels that could potentially cause parental concern. Teachers may not use novels on another grade level's list.

AP English: The College Board sets the requirements for core novels and publishes them in the College Board English Literature and Composition Course Description Book. The teacher of this class is accountable to College Board through the College Board audit process.

Teachers may not use novels on another grade level's list.

Appendix B: Reading and Writing Workshop in Elementary

*The single factor most strongly associated with reading achievement—more than socioeconomic status or any instructional approach—is independent reading, according to Stephen Krashen, linguist and educational researcher. (**The Power of Reading**)*

Through carefully crafted lessons, a teacher includes: **preparing the learner, modeling the skill or concept, providing guided practice and/or application, and allowing students to work on their own.** The classroom structure allows for whole group, small group, and on-their-own learning. Students routinely self-assess and reflect to adjust their own understanding. The goal is to help all students become proficient readers and writers who enjoy and appreciate being an effective communicator.

Reading

- Students have opportunity for strategies to be observed and practiced during *direct instruction, guided practice, and independent practice.*
- Students have multiple opportunities to apply and reflect on the use of these strategies through *independent reading, partner reading, small groups, literature circles, book clubs, etc.* Exposure to teacher read-alouds giving opportunity for modeling of correct pronunciation, fluency, and listening skills. (see read aloud component)
- Flexible grouping so that guided reading is possible. During guided reading, the *teacher works with a small group of students on skills* while the rest of the class is working independently or in partners on reading and responding to reading.
- Teachers provide opportunity for independent reading by:
 - Engaging students in reading while providing time for them to **share or respond** to what they have read (i.e., journaling, sharing with another student, etc.).
 - One-on-one **conferring** between a student and the teacher to *work on independent reading goals* and for the teacher to *assess a student informally on specific reading skills*. Also, this is an opportunity for the student and teacher to have a conversation about reading and thinking.
 - Helping students **select books at their reading level and interest.**
 - Exposing students to a **wide variety** of *quality children’s literature.*

Writing

- Teachers model the entire process of writing from start to finish.
- Explicit teaching of processes of writing, types of writing, and traits of writing.
 - Writing instruction/practice happens daily (45-60 minutes in grades K-5 is ideal).
 - Students **practice** what has been taught and modeled on their own and with support.
- Students share their writing with other students.
- Writing is collected (folder, electronically, etc.) so that student and teacher can assess progress of writing throughout the year.
- Teacher routinely conferences with students to discuss their writing.
- Students are given opportunities to select writing topics that are important to them.

The expected instructional model that covers all the above features is a Workshop Model. Reading and Writing Workshop provides each student with a supportive environment that involves them in authentic reading and writing experiences that focus on their strengths and needs. The reading and writing workshop has the following structure:

- o **Mini-lesson**
 - Short structured, predictable: 10-15 minutes
 - ONE specific skill (from benchmarks)+ ONE strategy (the “how”: clear, concise)
 - Sequence of lessons builds to support the goals of the reading or writing unit
 - Whole group sitting on floor in meeting area
- o **Independent Practice**
 - Longest portion: 20-40 minutes
 - Independent and small group practice of reading and writing
 - Students are reading or writing (could be around room or at desks)
 - Tone in room should be focused and purposeful
 - Teacher is conferring with individuals or working with a small group
- o **Share**
 - Short: 5 minutes
 - Whole group recap and extended learning (restate the teaching point)
 - Back on floor in meeting area (preferably)
